

RASA CHATBOT INTENTS & ENTITIES

PROJECT DISCUSSION

RASA TUTORIAL BOT : INTENTS

- LEARN HOW INTENTS AND ACTIONS WORK
- WHAT ARE RULES AND STORIES DOING

PROCESS FOLLOWED

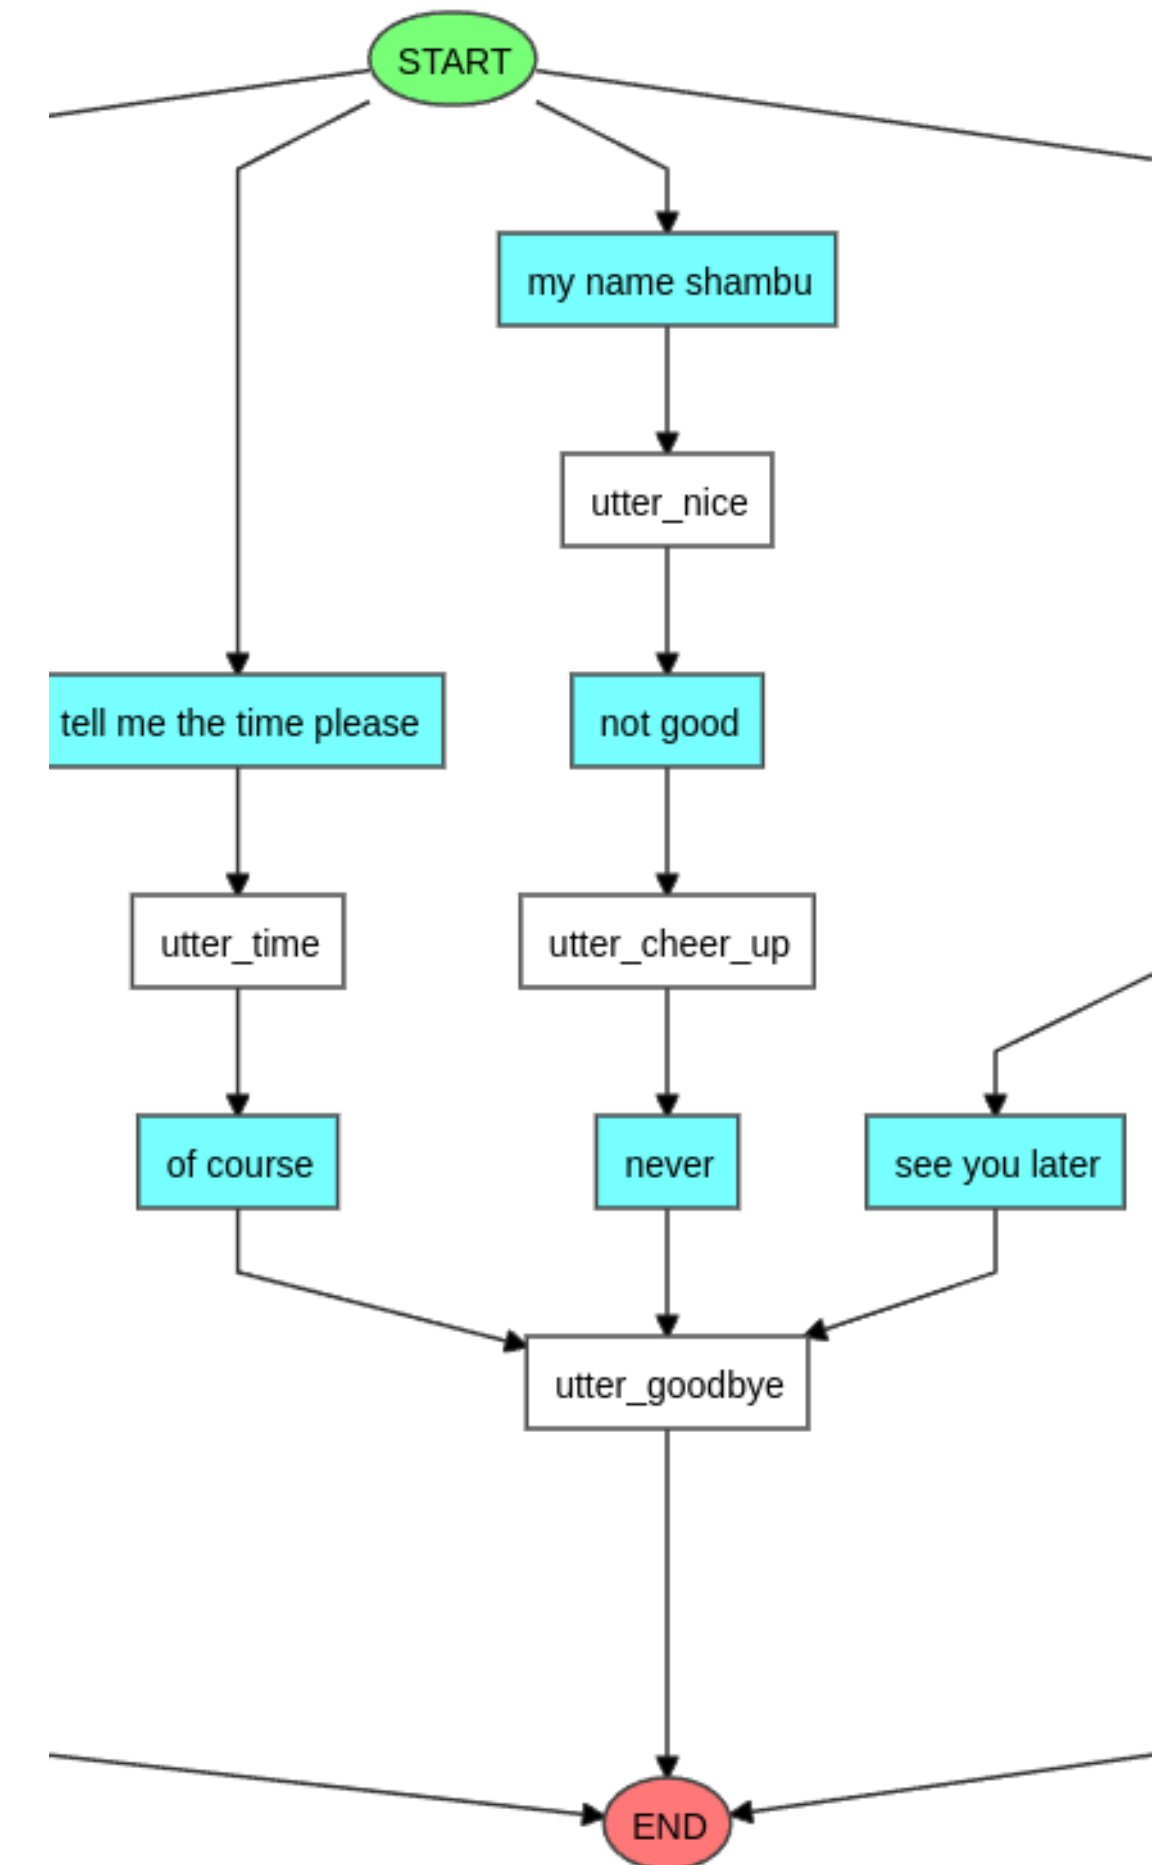

- CREATE TWO INTENTS TELL_TIME & MY_NAME
- CREATE TWO RESPONSES UTTER_TIME & UTTER_NICE

WE HAVE TO **GIVE DATA** FOR MODELS TO LEARN

- WRITE THE INTENT EXAMPLES FOR BOTH INTENTS
- WRITE THE STORIES TO USE THESE INTENTS EXPLICITLY

NEXT **TRAIN WITH DATA**

- TRAIN THE MODELS AND CHECK THE OUTPUT

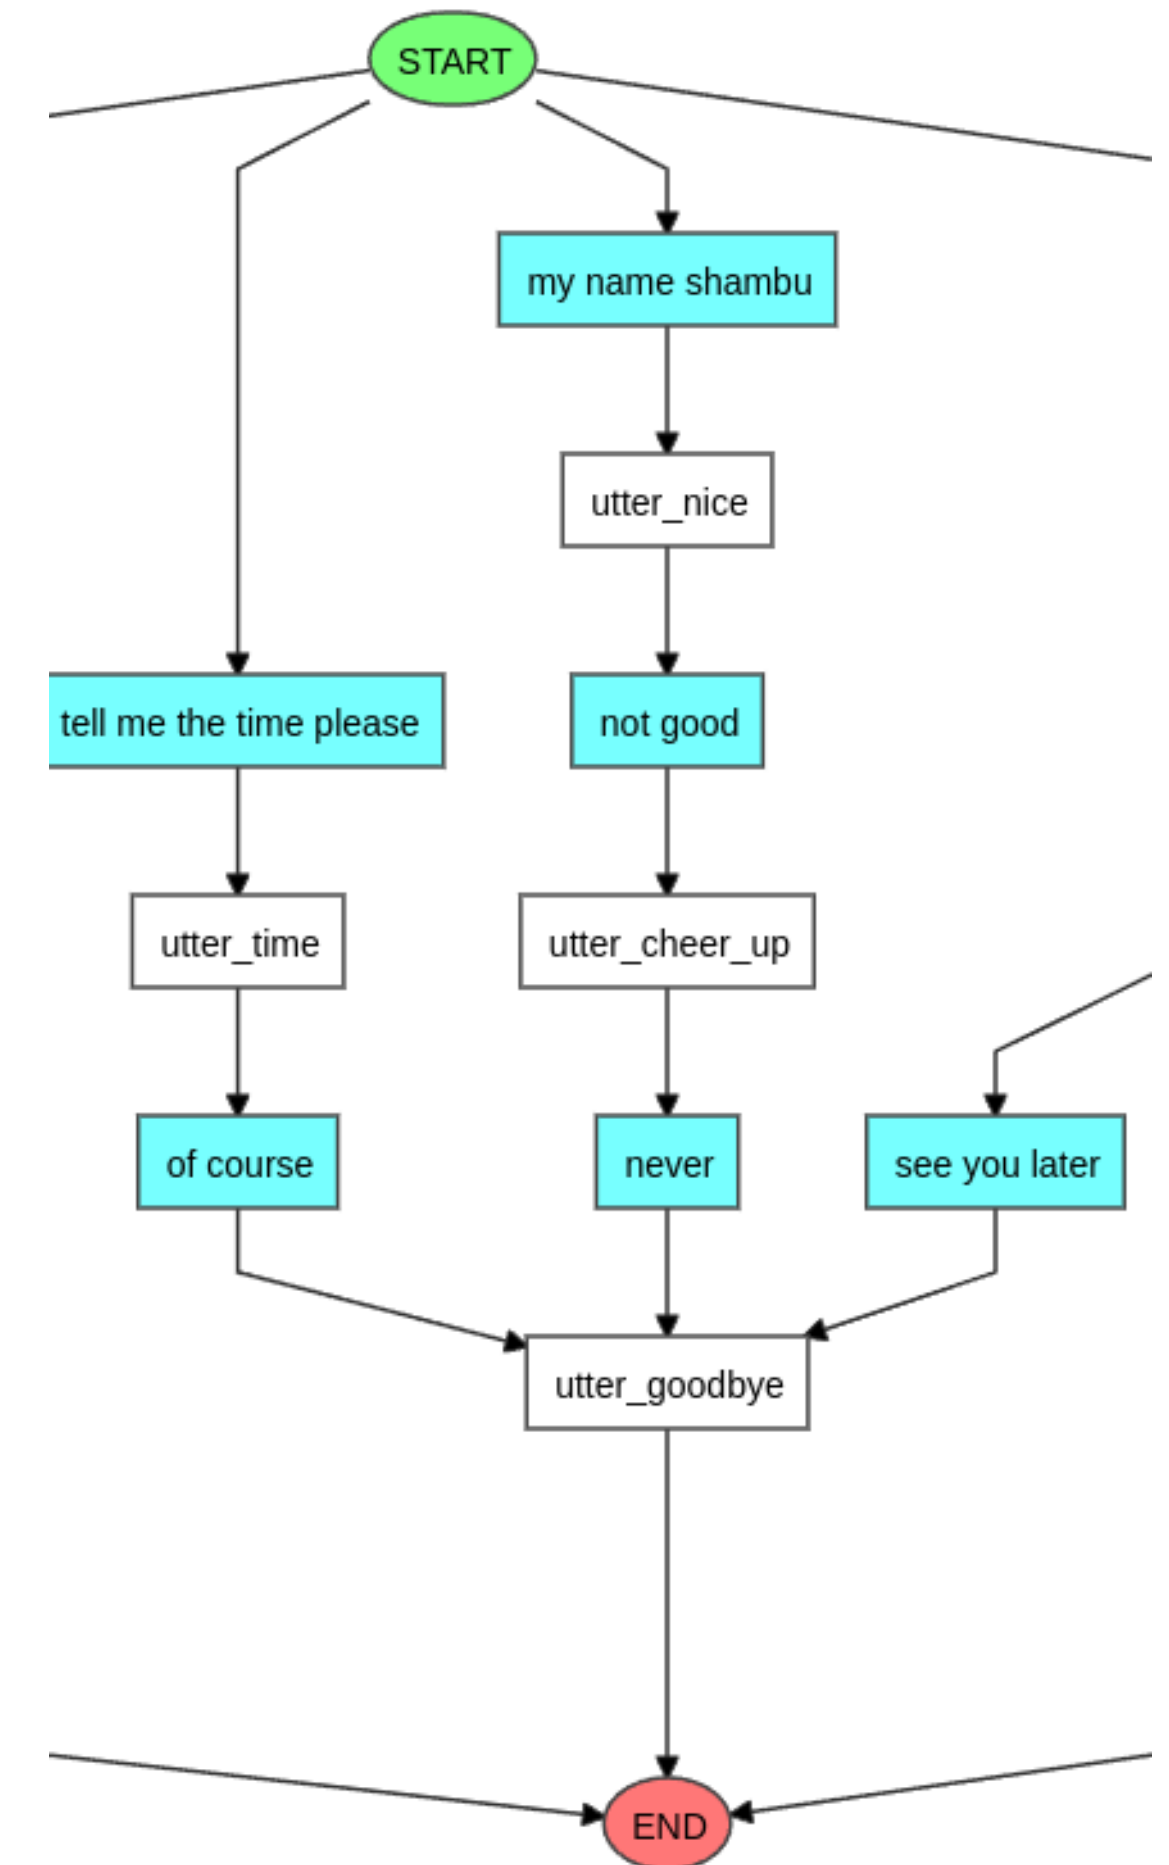

WHY THIS PROCESS : TO TEACH

1) AFTER DEFINING THE INTENTS, WE NEED TO A WAY FOR **CHAT BOT TO CLASSIFY** THE INTENTS FROM THE HUMAN LANGUAGE

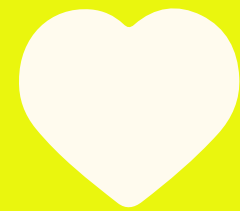

- **WE TEACH THE BOT** TO CLASSIFY USING THE DATA INSIDE THE NLU.YML

2) ONCE THE INTENTS ARE CLASSIFIED WE NEED THE CHAT BOT TO DECIDE / PREDICT WHICH IS THE NEXT ACTION TO BE PERFORMED

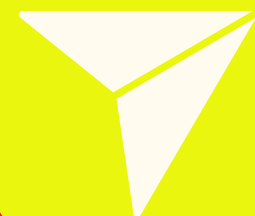

- **WE TEACH THE BOT** TO PREDICT THE NEXT ACTION WITH THE DATA INSIDE STORIES/ RULES.YML

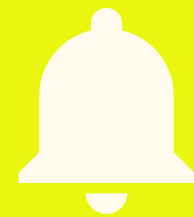

THANKS FOR WATCHING
