

DEPLOYING CHATBOT ANYWHERE WITH GRADIO

**INTERACTIVE CHATBOT WITH
WITH PYTHON FUNCTION**

WHAT PROBLEM WE'RE FACING

CREATING PYTHON CHATBOT

Chatbot interface is more than just input & output. There has to be a ways to store the memory. On top of the interface must be deployed on to a frontend

SERIES OF PROBLEM

- **DOWNLOADING THE AI MODEL**
- **CREATING THE NECESSARY FUNCTIONS**
- **CREATING INTERACTIVE DEMO**

LETS PRACTICE!!!

CONTINUE CHALLENGES

- Create UI with multiple options
- Try working with models that are loaded using different library like Exllama / Gpt_for_llama
